

Your home inspection is our
opportunity to shine.

**We are committed to raising the standards of your home inspection.
That's why we offer FREE RecallCheks for your home appliances with every inspection we do.**

RecallChek is the first service for consumer recalls in the United States and has compiled over 195 million recalls from public records, to create a fail-safe system to check for dangerous flaws with home appliances.

If a manufacturer designs a dangerous product, they **MUST** recall that item and fix it free of charge! RecallChek will provide the information to resolve any potential recall issues promptly.

How it works:

- ✓ Your home inspector records the model numbers of your built-in home appliances and HVAC systems.
- ✓ The Model Number Algorithm (MNA) matches your appliances against the RecallChek database of recalled items.
- ✓ RecallChek issues a report, separate from the home inspection report. This report is emailed directly to you.
- ✓ This service is intended to provide homeowners with valuable information on how to receive FREE repairs from manufacturers in the event a recalled appliance is found. This service is not meant to be used in the inspection response process.

RecallChek

A service provided by Residential Warranty Services

**If a manufacturer designs a dangerous product, they
MUST recall that item and fix it *free of charge*!**

You made the right choice by getting a home inspection that includes a RecallChek.

We find one recalled appliance for every ten homes we inspect- which means other inspectors are missing potentially dangerous fire hazards frequently. If you know someone who is in the process of purchasing a home, please pass our name on so we can take care of them as well.

Thanks again for booking your inspection with us.

Recall*Chek*®

If you don't receive your report or if you have any questions please
